

TEACHERS TO GET HIGHER SALARIES BY NEW SCHEDULE

Increase of Approximately \$7.58 a Month Proposed by Members of Salary Committee of General Council.

PAID STARVATION WAGE, SAYS COUNCIL MEMBER

Scale Provides Raise Annually Up To and Including Eleventh Year—Firemen's Claim Postponed.

The teachers and assistant principals of Atlanta schools will set an increase of approximately \$7.58 a month each if council adopts the new salary schedule.

Chairman C. H. Kelly and Councilman C. D. Knight, second ward members, prepared the new scale for discussion before the salary committee. Both Chairman John R. Candler could not attend the meeting and the matter was postponed for two weeks.

The above scale applies to teachers and assistant principals in the white and negro schools.

The minimum salary for assistant principals is set at \$1748 for the first year of service, and the maximum, \$341.50 after the sixth year.

The same scale applies for teachers for the first year at \$852.50 and increases the amount each year up to and including the eleventh year, when the maximum of \$852.50 is reached.

The above scale applies to white teachers.

While the increase for the teachers in the negro schools is substantial, still the scale is not on the same basis as the white teachers and assistant principals.

Colored assistant principals are to receive \$102.29 for the first, second, third and fourth years; \$145.50 for the fifth, sixth and seventh years; and \$184.88 for the ninth, tenth and eleventh years.

Colored teachers for the first and second years are to receive \$60.00 per annum; \$427.50 for the third, fourth and fifth years; \$471.50 for the sixth and tenth years; and \$558 for the eleventh year.

Chairman Knight declared Tuesday that the city is paying "starvation wages" to the teachers.

Paid Starvation Wages.

"I have no other interest in getting this scale adopted than that of getting that of forcing the city to do justice to the school teachers," Councilman C. H. Kelly said. "I have heard that little some of the teachers were receiving only \$1,000 a month, and when I informed him of my church and I was greatly surprised when when informed he said he did not earn more than \$1,000 a month."

Councilman Knight realizes that he is right, but he stuck it out until the ordinance is either adopted or rejected.

He is supported in his fight by Al German Kelly and Councilman John R. Candler, second ward delegate in council.

New Scale.

The following is the proposed new scale for white assistant principals:

First year, \$1,040.50; second, \$1,173.50; third, \$2,250; fourth, \$3,036.50; fifth, \$3,853.50; sixth, \$3,947; seventh, \$3,941.50; eighth, \$3,941.50; ninth, \$3,941.50; tenth, \$3,941.50; eleventh, \$3,941.50.

Scale for Firemen.

W. B. Cummings appeared before the city commission on the firemen's scale for the firemen, and asked for a two week's extension.

Secretary G. C. Carter, attorney for the commission, showed the present salaries of the firemen and the proposed new scale.

riers, dealers or agents.

THE PROBLEM OF TRAFFIC.

One of the increasingly serious problems of street traffic in Atlanta is attacked by the ordinance with which Alderman John S. Candler, in behalf of the committee representing the automobile proprietors, proposes to regulate the parking of automobiles in the center of the city. The measure has tentatively drafted would limit the stopping of machines in the heart of the city to thirty minutes. Collateral provisions are aimed at lessening the congestion due to auto and other traffic in the central parts of the city.

It is distinctly encouraging that both members of council and the chamber of commerce are co-operating in the modernization of the city. The first step, however, due to the auto, truck, trolley or pedestrian, is rapidly becoming one of the gravest questions with which expert municipal authority has to deal. The natural layout of Atlanta is such that, by an unfortunate paradox, the heart of the city is crowded with the narrow streets of the city's streets.

The huge volume of traffic that pours every minute of the day through lower Peachtree and Whitehall and over the viaducts joining these great thoroughfares would test streets of stone to breaking. The emergency with which under such circumstances is a familiar story to all persons who have to use these main north and south channels. That is not to speak of the collateral channels of Broad, Forsyth and the lesser one at Pkwy, where there is no viaduct.

It is inevitable that with these conditions the breeding of machine and the potentialities on traffic. There is delay and confusion and, as common experience and observation show, frequent menace to life, limb and property. The cities of Atlanta's class throughout the country with their street, streets, even as about the most dangerous. They limit the parking of cars to absolute necessity, and cars and traffic generally are kept on the move by trained policemen.

The proposed ordinance, or one embodying its principle, must soon be enacted and enforced in Atlanta, and it must go to a general and thorough cleaning up of the city's general traffic regulations. Mathematical precision in the regulation of traffic is one of the penalties we pay for growing pains, and for reaching metropolitan dimensions.

HE HIT THE USURERS.

In his Mobile speech Woodrow Wilson exposed the nerve of the Central and South American situation with a distinctness that must have made staid old Europe wince. The president was there to point out the benefits to come to these southern countries with the opening of the Panama canal. Foremost among them, he said, would be the fact that the Spanish-American states would then be on the "main lines," whereas they are now off the main lines. He then proceeded to show that the only possible benefit to Spain had operated to control these accept loans on the best terms they could drive, and that was generally the will of the men holding the money. He spoke of the "hard bargains" which foreigners had made with our southern neighbors, because of the "ruthless and unfeeling" and their craftiness in taking such countries as a mere fact of the element as gospel.

This is all true as gospel. Any one with the slightest experience in affairs not only in the countries mentioned by the president, but in Mexico as well, knows that they have been systematically exploited by European financiers and their agents. There are probably accounts for the rule of "opera bouffe" revolutionists in the region of the equator. Politicians with a sprinkling of followers knew they could capture the capital, and establish a de facto government. As the representatives of such they could contract indebtedness handily with foreign capital, pledging their successors at will. Whether

businessmen, the men behind them, had had the power of their government behind the collection of the debt. So the thing has gone in a vicious and endless circle, fomenting rebellion and fostering anarchy.

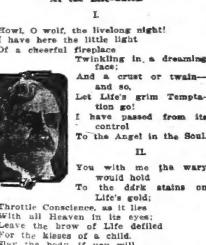

We are not so sure that the opening of the canal will automatically cure Europe of some debtors had the power of their government behind the collection of the debt. So the thing has gone in a vicious and endless circle, fomenting rebellion and fostering anarchy.

We are not so sure that the opening of

At the Life-Gates.

How! O wolf, the livelong night!
I have here the little light
Of a cheerful fireplace
Twinkling in a dreamlike
face!
And a frost or twain-
Let Little grim Temptation go!
I have passed from its
control
To the Angel in the Soul.

II.

You with me the wary
To the life stains on

Throats Conscience, as it lies
With all Heaven in its eyes:
Let me, too, be defiled
For the knees of a child.
Stay the body, if you will.
So the soul keep Heaven still.

III.

Night of Poverty and strife,
With your scourge of death in life,
I shut out your darker face.
Thankful for this sheltered space
With my heart in your care,
To the darkness: "All is well."

All is well from this dim sod
To the Angel in the Soul.

Sighs of the Master.

The chap that swears at the beat in
summer, is consistent in that he seldom
sheds a tear.

Some men are kept in one office for fear
that if they're lifted out they'll get in some
good man's way by running for another.

If you keep joy enough in the house
to make a man's wife a dame, then
turn you are indirectly a benefactor of the
whole community.

The chap who worries over the prob-
able high cost of gas when the sun's light
dies out is also in danger of starving to
death over the prospect of heat at a dollar
a pound.
